Year 2021:

In April and May there was stable spring weather with lots of sunshine and mild temperatures. July was pretty even at first, but the hottest days of summer came towards the end. In September, the summer seemed to be extending, there were still many days with almost 30 degrees. Only in the last few days did a striking cold front ensuring a lasting cooling. October was out of line in terms of temperature; while most of the other months were too warm, the temperatures in October were below average.
